**OBSERVATIONS:**

**From Last Inspection-** Discarded scrap metal remains on the ranch that still needs to be removed.

**In this inspection** – The cement entryways in the coops are beginning to accumulate spills of miscellaneous fluids (yolks, blood etc.), and are attracting flies. Additionally, a rooster was observed in one of the coops.

**RECOMMENDATIONS:**

Remove discarded scrap metal, debris, and other miscellaneous inoperable equipment from ranch. Continue to keep areas outside of the chicken houses as clean as possible from manure and large quantities of accumulation of feathers. Remove the miscellaneous spilled fluids from the coops and the rooster from the property. It is against municipal code to have roosters in the City of Yucaipa.
