OBSERVATIONS:

<ul style="list-style-type: none"> -Manure and pesticide logs are current. -Weather; mid to high 80s this week. -Manure has been removed, no piling of manure under the cages. -Light amount of broken eggs in the coups. -There were no flies observed before of after the inspection from the city vehicle while changing into and out of the inspection gear. -No larva observed in the manure. -Flies were minimal but more than the last inspection on 06/17/2020. -Coups 1,2 and 6 had leaks present. He foreman was instructed to rectify the leaks and puddling under the cages. -New growth of green vegetation/weeds observed around the perimeter of the property. The foreman stated he will conduct property maintenance on Saturday, 06/27/2020. -During the inspection one more coupe was being altered to become a free-range coup. The foreman stated he believes that the entire egg ranch will be free-range by the end of July.

RECOMMENDATIONS:

<ul style="list-style-type: none"> Rectify leaks and puddling within 24HRs. Cut and remove all weeds prior to the next inspection on 07/01/2020.
