LARVA BREEDING:	NOT OBSERVED	LIGHT	MODERATE	HEAVY
Larva breeding on the ranch	X			
Emergency activities need to be implemented		YES		NO X

RANCH IS IN COMPLIANCE	YES X	NO
-------------------------------	-------	----

OBSERVATIONS:

All outdoor chickens have been moved to the indoor coops. I did not see a single fly in the indoor coops, however I did observe a slight amount of Fania near the now vacant outdoors coops. The ranch is working on scrapping the ground of the vacant coops but It's completely dry and no larvae were seen. Still there is some overgrown vegetation that the ranch needs to remove.

RECOMMENDATIONS:

Continue to work on the overgrown vegetation and watch the water condensation/run off that is created from the coolers for the indoor coops.

ACTION TAKEN:

None

Biosecurity Measures Taken Yes X No

Inspected By: K Graydon
