OBSERVATIONS:

Flies around the exterior of the ranch were minimal. There is still some work to be done regarding the overgrown vegetation, but more progress was made, water from the coolers is minimal and is draining properly. All coops are locked and I could not get inside. The conveyor belts were free of manure and there were a few extra fly bait stations added. Manure haul slips have been emailed to me as required.

RECOMMENDATIONS:

Continue maintenance around the ranch.

ACTION TAKEN:

None

Biosecurity Measures Taken Yes X No _____
