LARVA BREEDING:	NOT OBSERVED	LIGHT	MODERATE	HEAVY
Larva breeding on the ranch	X			
Emergency activities need to be implemented		YES		NO X

RANCH IS IN COMPLIANCE	YES X	NO
-------------------------------	--------------	-----------

OBSERVATIONS:

No manure present and conveyor belts were free of debris. Flies around the exterior of the ranch were not observed and inside of the ranch they were very light. Coops are locked and I could not enter. Water coolers are draining into the concrete gutters as designed. Overall the ranch is being maintained well and there are no areas of concern that would be generating excessive flies.

RECOMMENDATIONS:

Continue to remove the overgrown vegetation.

ACTION TAKEN:

None

Biosecurity Measures Taken Yes X No
