Larva breeding on the ranch		X		
Emergency activities need to be implemented	YES		NO X	

RANCH IS IN COMPLIANCE	YES X	NO
------------------------	-------	----

OBSERVATIONS:

No leaks present inside of the chicken houses however there is a large water runoff that appears to be coming from the coolers. The water runoff is leaving standing water around the ranch which seems to be a breeding ground for flying insects. Ranch has put some Neporex on portions of the manure to discourage larva breeding.

RECOMMENDATIONS:

Immediately repair the water runoff.

ACTION TAKEN:

None

Biosecurity Measures Taken Yes X No

Inspected By: K Graydon
