**OBSERVATIONS:**

Inspection could only be made from the perimeter of the ranch and everything appeared in good shape. The vegetation from the public right-of-way was cut back and no flies were observed. I have received all manure haul receipts as required. In my phone conversation with the ranch manager on August 20, 2020 they are still following their normal operational procedure while focusing on any area that could be a possibility for fly breeding. Currently there are no outdoor chickens and the indoor coops are still not at full capacity.

**RECOMMENDATIONS:**

Continue to send manure haul receipts and stay compliant with weed abatement on the ranch.

**ACTION TAKEN:**
