Larva breeding on the ranch	X			
Emergency activities need to be implemented		YES		NO X

RANCH IS IN COMPLIANCE	YES X	NO
------------------------	-------	----

**OBSERVATIONS:**

No flies observed while suiting up to enter the ranch. The Ranch is following manure removal guidelines and has provided haul slips accordingly. All chickens are maintained indoors and locked. The coolers for the chicken coops have minimal condensation, however there was one small area of concern where the water was puddling. Fly bait strips and stations are maintained around the property. Overall, the ranch is in great shape.

**RECOMMENDATIONS:**

Ranch manager will have an accumulation of mud removed which is causing a damp muddy area in the drain.

**ACTION TAKEN:**

None

Biosecurity Measures Taken      Yes   X      No
