Dear Mayor Avila and City Council Members,

Re Item 1:

I was one of the community members who participated in public comment and wanted to seek clarification on several items on agenda item 1 before they are approved into the record.

During the June 22nd meeting, comment time was limited to 2 minutes, though this is not noted in the proposed minutes. This appears to not follow City Council Rule 5.2 which provides for a minimum speaking time of 3 minutes, with no provision for city council to reduce that time that I could find. Am I missing something?

Also, Mr. Westwood's comment representing the Yucaipa Calimesa Democratic Club was cut off, though the same rules allow for more time when representing a group. A time extension was granted to a group of business owners on the 06/08 meeting, why could the same not be extended to Mr. Westwood?

I would like to receive clarification on both of these decisions before approving the minutes.

Thank You!
